## Resume

Experienced Full Stack Developer with 12+ years delivering scalable, efficient, and user-focused software solutions. Specialized in JavaScript, ReactJS, NodeJS, and API development. Proven track record working on cross-functional, remote teams. Strong self-management skills, proactive communication, and commitment to delivering real business value through technology.

## Experience

### - System Coordinator

**Tesalia CBC, Ecuador**

**Jul/2013-Jan/2023**

- Developed scalable software solutions for operational and commercial use, optimizing processes across departments.
- Led development of mobile and web applications for market asset tracking, travel expense management, and real-time KPI reporting using Node-RED and WordPress.
- Supported SAP DSD module rollouts and managed 1,400+ mobile devices.
- Achieved 90% efficiency improvement by implementing a mobile device manager.
- Closed system vulnerabilities related to product loss through security and process redesign.

**Projects Technology:** React JS, Javascript, Redux, API, Laravel, Shell, Android Studio, Wordpress, JSON, MS Project.

### - System Analyst

**SYL Trading Company, Ecuador**

**Dec/2010-Jun/2013**

- Transitioned manual sales processes to fully digital with mobile devices and middleware.
- Deployed 350 handhelds and improved field productivity across sales teams.
- Introduced system features that boosted software performance and team satisfaction.

**Projects Technology:** Javascript, HTML, CSS, SQL-Server, Oracle 9i, 12c, Shell.

### - System Analyst

**Birobid S.A. , Ecuador**

**Feb/2010-Dec/2010**

- Designed custom websites and shopping cart systems for SMEs.
- Created a financial control module for the agriculture sector.
- Provided tech support for internal and remote users.

**Projects Technology:** HTML, JavaScript, CSS, PHP, SQL-Server, MySQL.
