

JEFFERSON MIRANDA ALVARADO

Senior Full Stack Software Engineer | React.js | TypeScript | Node.js | Express.js | GraphQL | Docker

Sydney, Australia | jjmirandaa86@gmail.com | +61 423 775 180

Portfolio: <https://www.acertijo.dev> | GitHub: <https://www.github.com/jjmirandaa86>

PROFESSIONAL SUMMARY

Senior Full Stack Software Engineer with 12+ years of experience designing, building and deploying scalable software solutions across enterprise, web, mobile and integration environments. Strong hands-on experience with React.js, TypeScript, Node.js, Express.js, REST and GraphQL APIs, MySQL, MongoDB, Prisma, JWT authentication, Docker, GitHub Actions and CI/CD workflows.

Experienced across frontend, backend, database design, API security, business process automation and production deployment. Led enterprise software initiatives for nationwide operations, delivering automation, dashboards, asset tracking, ERP integrations and business workflow systems. Improved operational efficiency through scalable applications, process automation and centralised mobile device management for 1,500+ devices.

Recent projects include AI-enabled web applications, booking platforms, bilingual portfolio systems, transactional email microservices and GraphQL learning platforms. Based in Sydney and seeking Frontend, Backend or Full Stack Software Engineer roles.

TECHNICAL SKILLS

- **Frontend:** React.js, TypeScript, JavaScript ES6+, Vite, Redux Toolkit, React Router, Mantine UI, HTML5, CSS3, Responsive Design, i18next, Recharts, Framer Motion.
- **Backend:** Node.js, Express.js, REST APIs, GraphQL, Apollo Server, JWT Authentication, bcrypt, API Security, Rate Limiting, Microservices.
- **Databases:** MySQL, PostgreSQL, MongoDB, Oracle, SQL Server, Prisma ORM, Database Design, Migrations, Query Optimization.
- **DevOps & Tools:** Docker, Nginx, GitHub Actions, CI/CD, Git, GitHub, Linux, SSH Deployment.
- **Testing & Practices:** Jest, Agile/Scrum, SDLC, Code Reviews, Documentation, Troubleshooting.
- **Integrations:** Google Maps API, Resend Email API, n8n, OpenAI workflow integration.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Software Engineer

Jan 2023 – Present | Australia

- Designed and developed full-stack web applications for business, education and AI use cases using React.js, TypeScript, Node.js, Express.js, GraphQL, MySQL, Prisma and Docker.
- Built AI-enabled interfaces with browser-based computer vision, live scoring, facial landmark overlays, image capture, MySQL-backed history and real-time interactive experiences.
- Delivered booking, customer management and admin platforms with multi-step forms, Google Maps autocomplete, SEO landing pages and JWT-secured REST APIs.
- Developed bilingual React platforms with responsive UI, reusable components, protected routes, Redux Toolkit, API integrations and transactional email workflows.
- Architected GraphQL and REST services with relational models for users, bookings, conversations, vocabulary tracking, practice sessions and operational records.
- Implemented secure, deployable services using JWT, bcrypt, CORS, Helmet, rate limiting, Docker, Nginx and GitHub Actions CI/CD.

Technologies: React.js, TypeScript, JavaScript, Node.js, Express.js, GraphQL, Apollo Server, Prisma, MySQL, MongoDB, Redux Toolkit, Mantine UI, Vite, Docker, Nginx, GitHub Actions, JWT, Google Maps API, Resend, face-api.js, Phaser.

TESALIA CBC | Systems Coordinator / Full Stack Software Engineer

Jul 2013 - Jan 2023 | Ecuador

- Led the design and delivery of enterprise web applications supporting commercial, logistics, sales and operational teams across a nationwide organisation.
- Developed full-stack solutions with React, JavaScript, Node.js, REST APIs, SQL, Laravel and mobile technologies to improve workflows, visibility and operational efficiency.
- Built web and mobile platforms for refrigeration asset tracking and employee travel/expense management, reducing manual work and streamlining approval processes.
- Created real-time KPI and production dashboards using Node-RED and web technologies, enabling faster monitoring of performance and operational metrics.
- Supported SAP Direct Store Delivery deployment across 20+ agencies, improving process standardisation, scalability and user adoption.
- Managed and optimised 1,500+ mobile devices with SOTI MobiControl, improving device administration efficiency by approximately 90%.
- Implemented RPA, master-data validation workflows and ERP control improvements to reduce data errors, strengthen compliance and minimise inventory-loss risks.

Technologies: React, JavaScript, Node.js, REST APIs, Redux, Laravel, SQL, Android Studio, WordPress, Git, Node-RED, SOTI MobiControl, SAP DSD, Agile/Scrum

SYL Trading Company | Software Engineer / Systems Analyst

Dec 2010 – Jun 2013 | Ecuador

- Participated in a company-wide digital transformation initiative, replacing manual sales processes with mobile-based solutions used by field sales representatives.
- Developed and deployed middleware integrations for 350+ handheld devices, enabling real-time order transmission and reducing manual data entry delays.
- Supported multiple business acquisition and expansion projects, assisting with system configuration, deployment activities, user training and operational readiness for newly integrated business units.
- Delivered software enhancements that improved application performance, system reliability and user satisfaction across commercial operations.

Technologies: JavaScript, HTML, CSS, SQL Server, Oracle, Middleware Integration, Shell Scripting.

BIROBID S.A. | Systems Analyst

Feb 2010 – Dec 2010 | Ecuador

- Designed and developed custom websites and e-commerce platforms for small and medium-sized businesses, helping clients establish and expand their digital presence.
- Built financial management modules for agricultural-sector organisations, improving visibility and control over operational and financial processes.
- Provided technical support and troubleshooting assistance to internal and external users, ensuring system availability and business continuity.

Technologies: HTML, JavaScript, CSS, PHP, SQL Server, MySQL.

EDUCATION

- Diploma of Information Technology (Web Development) – Laneway Education, Sydney (In Progress)
- English certificate / B2 Upper Intermediate (ILSC Education Group).
- Bachelor of Science in Computer Systems Engineering – Guayaquil University

LANGUAGES

- English Upper-Intermediate
- Spanish Native
